CANVA ADOBE PHOTOSHOP

CERTIFICATIONS

- Java Programming: Solving Problems with Software (with honors)
Coursera
Feb 2022
- Programming for Everybody (Getting Started with Python)
Coursera
July 2021

WORK EXPERIENCE

Web Development Intern

Oasis Infobyte

Frontend Developer

July 2022

- It was an Online Web Development and Designing Internship Program in which we have to successfully accomplish three tasks.
- Task 1: I've crafted a mesmerizing calculator that effortlessly dances with numbers and gracefully computes with precision, elegantly fashioned with the finesse of HTML, CSS and JAVASCRIPT.
- Task 2: I have crafted a task manager, ingeniously combining HTML, CSS, and JavaScript to create a user-friendly to-do list that simplifies organization and boosts productivity effortlessly.
- Task 3: I have created a heartfelt homage through the magic of HTML, CSS, and JavaScript, constructing a captivating tribute page that honors the spirit of an extraordinary individual with grace and warmth.

PROJECTS

1. Optimistic Existence- Counselling Website

- Developed this website using HTML, CSS and JavaScript.
- Designed Web pages like Home Page and About Us page and Utilized canva to create eye-catching Logo for the website.
- Implemented feature like Registration Form to book online appointments using Google forms.
- Additionally, I actively collaborated with the team to gather requirements, conducted thorough testing, and provided valuable insights and feedback throughout the development process.

2. ClimoSphere- Weather Forecast System

- Developed a comprehensive weather application using HTML, CSS and JAVASCRIPT that is providing users with real-time weather information.
- Leveraged APIs to gather accurate weather data, including temperature, humidity, wind speed
